Subject: - dishNET Wireline, L.L.C._FCC 96.61 Certification_2017_Project

Good Afternoon,

Please find attached Section 64.1900 of the Commission's Rules Geographic Rate Averaging Certification – EB Docket No. 96-61 filing that is due to be filed with the FCC along with the standard GSA cover letter.

Section 64.1900 states:

Each non-dominant provider of de-tariffed interstate interexchange service must certify that it provides such service in compliance with its geographic rate average and rate integration obligations pursuant to section 254(g) of the Communications Act.

Section 254(g) of the Communications Act provides in relevant part that a provider of interstate interexchange telecommunications services shall provide such services to its subscribers in each State at rates no higher than the rates charged to its subscribers in any other State.

The certification page attached needs to be signed, notarized and then returned to me via email or fax so that I can file the certification with the FCC. Please return this to me by no later than Friday, April 14, 2017. You may keep the copies attached to this email for your records. Please let me know if you have any questions.

Kind regards,

Britne Warner
